About us

The Spirit of Innovation

Global Player. COLOP is one of the world's leading manufacturers of modern stamp and marking devices. With more than 500 employees and numerous subsidiaries worldwide, COLOP exports to more than 130 countries with an export rate higher than 98 %. Continuous growth is firmly rooted in COLOP's corporate philosophy, which ensures that the globally increasing demand for high-quality European stamp products can continue to be met in the future.

It was for this reason that a major expansion of the production capacity was carried out in the last few years at both the parent plant in Wels, Austria, and at the company's second production site in the Czech Republic. COLOP operates in three business areas: in the standard stamps segment, in the digital marking area as well as in the field of arts and crafts.

Innovation & Design. Since it was founded some 40 years ago, COLOP has been committed to product innovation in the field of state-of-the-art marking devices, particularly stamps. In 2008, for instance, the company introduced 'Green Stamps' into the stamp world. These stamps are made predominantly from recycled or renewable raw materials. Stamps with antibacterial protection are another of the company's significant innovations. With the Printer stamp line, the personalisation of stamps has become a trend. In 2019 COLOP introduced the world's first electronic-digital stamp and marking device for mobile printing of its kind - the COLOP e-mark®.

Marking Solutions. The range of products comprises a large selection of stamp solutions for different applications, including office and pocket stamps, text and date stamps, rectangular and round stamps. COLOP also supplies all the products and systems necessary to ensure a high-quality stamp imprint. The range of services offered by COLOP is rounded off by e-business solutions for the creation of text plates and the sale of stamp products online, as well as software tools for the personalisation of ImageCards™.

Quality & environmental management. COLOP's environmental management system has been ISO 14001 certified for many years, which ensures that all processes have been optimised from an ecological perspective. The company has however also had the conviction to make a voluntary, above-average contribution to environmental issues, going above and beyond the strict EU and national regulations. COLOP has been ISO 9001 certified since 2001. This certification forms the basis for a continual improvement process as part of the company's excellent internal quality management system.

CO₂ neutral. As early as during product development, attention is paid to resource conservation and the use of sustainable materials. The use of recycled plastics is constantly optimised and increased, and energy and raw materials are used as efficiently as possible. The in-house photo-voltaic system produces a considerable part of the electricity required at the Wels site. The significantly reduced but unavoidable CO₂ emissions of products - manufactured at one of the two production sites in Wels, Austria or Borovany, Czech Republic - are offset by investments in climate protection projects (Gold Standard projects). This means that more than 90 % of all products in the COLOP stamp range can be described as climate neutral.

High tech production. A modern and efficient production process is of great importance to COLOP, paying special attention to the energy resources required. Fully automated production and manufacturing of key product lines, ongoing modernisation and upgrading of machinery and constant process optimisations all ensure high quality products and an energy-efficient manufacturing process.

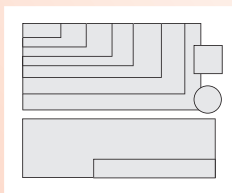

Printer Line

The comprehensive range of self-inking stamps

The Printer Line offers a complete choice of sizes from small and handy up to large and generous - the largest range of formats from round to oval and even a triangle.

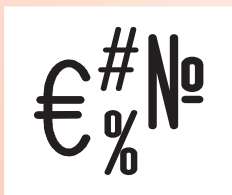

Produced in high quality materials for reliable, regular and comfortable use

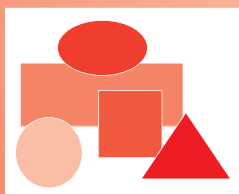

Almost all common sizes are available from very small up to X-large imprints

Offers a wide range of text-, dater- and text-dater-stamps and even stamps equipped with stock text

Bands with individual characters available for various models

Available in all kinds of formats from rectangular to triangular as well as from round to oval and more. For eye-catching and outstanding imprints

Pocket Stamps

Essential companions

Multifunctional and always with you - on your desk in the office, or "on the road" in a pocket, around the neck or on a keyring.

Pocket Stamp Plus: open - stamp - close with just one hand

COLOP's pen stamps are attractive writing implements, but with the added function of a practical stamp

Easy and flexible to use - effortless and clean

Modern design - the perfect gift for everyone

Small, smart and portable - with a clip it goes everywhere
